The Problem
53% of teens get their prescription drugs from friends and family, not street pushers.
They think these drugs are “safe.”
But in the wrong hands, they’re not.

The Solution
The Lock Your Meds® campaign asks adults to:
* secure their medication
* regularly take inventory of their medication to ensure nothing is missing
* safely dispose of unused or expired medication
* spread the word to family and friends

Help us get the word out. Join us in delivering this important message.

The Benefit
Selling lives. Prescription drug abuse is a preventable epidemic.
